THE COLLECTIONS

They say that home is where the heart is. These collections are here to show that transforming your habitat into one full of warmth and personality has never been so stunning. With a kaleidoscope of colour and devotion to the smallest details that you'll only find at Home Centre, these three trends have been carefully crafted to leave a lasting impression on every room of your house. Elegant furniture, harmonising accents, mood-making accessories – it's all here for a home you'll love.

TROPICAL JUNGLE

Tropical is here and it's here to stay. Inspired by supersized florals, ferns, flamingos, birds, cacti and lush dense foliage, this sophisticatedly contemporary collection celebrates the colours, forms and details of nature at its very best to bring the outdoors into your interior spaces. The designs are hand-painted, light and delicate, while the illustrative aspects – tropical palms and florals – meet abstract profiles and crisp white backgrounds for a refreshingly bold clash.

BOHEMIAN SUNSET

This collection is inspired by art movements, from textiles of the '50s and '60s to Bauhaus and op art. It elevates simple shapes with optical effects and new colours and materials. A modern impression on bohemian-accented tones and patterns, the pieces go big on geometric graphics by playing with scale, direction and spacing. Bold shapes, tile patterns and tessellations are the order of the day, with the visual feast rounded off by the richness of red, rust, beige and off-white hues.

ROYAL ODYSSEY

Paisley, damask and medallions are mixed to create this transitional collection. Contemporary design techniques combine with traditional arts and crafts to produce a royal look, while the portfolio generates excitement through teal and gold, ideal tones for statement pieces. As an element of surprise, fantastical creatures are collaged into classic compositions, and the entire collection is defined by heavy jacquards, embroidered surface textures and voluptuous trims.

Amber Living

Offering a riff on the harmonious feel of all things green and natural, this living collection creates a beautiful sense of calm by blending verdant vibes with the modern and made-for-relaxing polyester-upholstered Amber sofa.

WHAT ARE FITTED SHEETS?

Fitted sheets are specifically made to cover the mattress on a bed. This is the first sheet applied when making a bed and it is the one people generally lie on when they sleep. They fit the contours of the mattress and leave a smooth unruffled surface

WHY USE FITTED SHEETS?

- The elastic is attached to pull in the borders so they fit snugly and yet have enough stretchability to fit the base of the mattress.
- Applying a fitted sheet takes less time than using a flat sheet to cover your bed. Owing to its construction, the corners are already pre-shaped to fit the size mattress, negating the need to fold and adjust.
